Judge Bookstaver Refuses to Vacate the Order for More Time.

First Victory for the Millionaire in Mrs. Keegan's Suit.

She Must Also Pay Costs of the Motion.

"Motion denied, with \$10 costs," was the literature of the decision of Judge Bookstaver in the Court of Commo to-day in the case of Della Keegan, who asks \$100,000 damages from Russell Sage for an allested wrong done to her twenty-four years ago.

Baptist Marshall counsel for Mrs. Keegan, moved with arguments and affidavits, the presentation of which took all day yesterday, that the former order of the Court be vacated, giving Mr. Sage more time in which to amend answer to her complaint, in order that he might present further affidavits to the effect that Della has lived a dissolute life, spent much time on Blackwell's Island, and is of unsound mind and irresponsible.

The denial of the motion for a vaca tion of the order leaves Mr. Sage and his counsel, Henry S. Bennett, with sev-

Mrs. Mulhearn also swore that she was not sworn at that hearing before Referee Runk, a notary public called in only asking her if her signature to the paper was her signature.

half years, and was a great card with the family in Europe. He wore a black silk dress, like his sisters, and did somersaults and flipfaps, but was not permitted to do any high tumbling. No attempt was made to play him here, owing to the Gerry law. He wanted to go on with the family, but Mr. T. H. French believes in respecting the law and would make no application for permission to play him.

He was very fond of his work, and his little heart was broken because he was not able to appear. He went to the American Theatre as often as he was permitted, and grew to be a great favorite with the performers. Maggie Cline had him down to the Battery bath last Thursday, teaching him to swim, and on the night of the accident he cried because he could not go to the theatre to work a "crash" or contribute in some other way to the noise that accompanies the chorus of Miss Cline's "Throw Him Down, McCluskey."

So much was he liked at the American that his uncle, Richard, who heard the news at 10 o'clock, while the roofgarden performance was going on, kept it away not only from his brother and sisters, but would not tell any of the actors. He dressed for his act, which begins at about 10 o'clock, and with this terrible load of secret in his heart went on the stage with the family. Richard, it was noted, missed several times during the act. He was not himself, he faitered and, fell, and not only the Frantzes but others noticed that something was the matter with him. Acting Manager Matthews inquired if anything was wrong, but nobody could explain.

One encore after another the family took, until Marie had turned her thirty and odd flipfiaps. Then the work was over, and Richard, breathless, weak and nerve-wrecked, staggered against a wing and told the awful news to the others. He spoke in French. Its color left the face of the boy's father. The women cried and shrieked. In a moment the performers all knew it, and there were choking throats and moist eyes in all the dressing rooms.

Last the fit, after the performance, all the roo ganization so that it could be said that Mayor Hewitt appointed a Tammany man.

Since Mr. Voorhis became a Police Judge, Mr. MacLean has been in the minority in the Police Board.

It has been known for a long time that ex-Register John Reilly wanted to be a Police Commissioner. At the time when Commissioner Sheehan's term expired, on May i, it was said that Mr. Reilly would succeed him, but Mr. Sheehan was reappointed.

The appointment of Commissioner MacLean to the United States Circuit Court would make an opening in the Board, and Mr. Reilly is siated for the place, it is said.

With Mr. MacLean out of the Board and Mr. Reilly in it, Tammany Hall would have three Commissioners, and Mr. McClave, the Republican member, would be in the minority.

Commissioner MacLean was dropped from Barney Martin's club a year ago last Spring, osiensibly for non-payment of dues and falling to attend meetings, but in reality for voting against Martin in the Police Board.

Although no one will at present confirm the rumor that Mr. MacLean is to leave the Police Board, the Commissioner is evidently making preparations to go. Recently he transferred Doors man McCullough, who had been detailed in his office for a few years, to the House of Detention, and two meetings ago he made some roundsmen that he was entitled to.

Clark's discharge in a day or two. Farley is accused of the negligence which caused this injustice. Another case of alleged neglect is that of Christopher Higgins, a me-chanic, who was arrested on a petty charge and sent to the Tombs, where he was kept for three weeks because, it is claimed, the papers were pigeon-holed in Farley's desk. Clerk Farley, when questioned about the matter this morning, said that the police, lawyers, detectives and other clerks had access to his desk, and that somebody had mislaid the papers in question.

somebody had mislaid the papers in question.

He said he handled over 20,000 complaints each year and had a great deal to think about. There was no intention to do either Clark or Higgins any injustice, he said, and he was very sorry they had been kept in prison so long before trial.

Farley is a brother of ex-Alderman Farley, of the Board which granted the Broadway franchises. He is very popular with the sttaches of the court, and strong intercession will be made in his behalf when he is called on for an official explanation.

Every one was made to con-ceal their destination by the railroad people, and also by the men themselves, but from the families of five of the men in the crowd a reporter learned they had gone to Weir City. Mr. Cohen called in Detective Hussey, and had both Garbow and Isaacs attreated.

The city authorities were notified that the men were coming and that they were hungry, having had nothing to eat since the day before. Arrangements were promptly made to give them a meal, and when they arrived about 1 o'clock they were fed on the ground east of the roundhouse. The city authorities had ordered 100 loaves of bread, 100 pounds of bologna sausage, forty pounds of cheese and fifty gallons of coffee. The men were nearly famished. They were an orderly set and took the first train out, the Railroad Company permitting them to ride free. The city authorities were notified that

The rooms upstairs which the Degas family occupy, were formerly used as a hay loft. There is a large window in the front which reaches down to a level with the floor. It was from this window that the girl tumbled out.

It seems that Ellen went out last evening and came home about 10 o'clock. Her father began to scold her for staying out so late, and beat her.

Whether she jumped out of the window to escape her father's blows or was thrown out during the scuffle is not known. At any rate she fell from the window to the sidewalk.

The distance is only about eleven feet, and she was not badly hurt. At the Harlem Hospital it was said that her back was injured, but that she would be all right in a few days. The girl this morning refused to make any statement. Policeman Nicholson arrested Degas, who waslocked up in the Morrisania station. The police report states that Elles jumped from the window to escape her father, but the neighbors say she was pushed or thrown out.
